## Introduction

---

Eager recent graduate with a solid foundation in software development, particularly in areas of Front End development. Proficient in collaborative environments, adhering to best practices while showcasing **adaptability** and a product-centric mindset. **Quick learner** and **strong team player** with relevant project experience.

## Skills

---

- **Coding:** JavaScript, React.js, Node.js, Angular, Python, PHP, HTML/CSS, TypeScript
- **Familiarity with:** C#, ASP.NET, Transact SQL, Azure cloud
- **Software Knowledge:** Object-oriented design, Data Structures and Algorithms, CI/CD pipelines, Agile Methodologies, Digital Cartography, Familiarity with cloud technologies
- **Technical Skills:** Office 365, EUC Systems, Desktop Virtualization Systems, ITIL, Computer networking, Cisco packet tracer, VPN, Visio, VMware, SharePoint, SQL Server, TCP/IP
- **Design:** Figma, Adobe Creative Suite
- **Strong work ethic:** Integrity and collaborative approach to work, Ability to think strategically and to translate ideas into actions, Strong communication skills

## Work Experience

---

### Software Developer (Front End)

Koolbaar

Montreal, QC

Feb 2023 – Feb 2024

- Designed and implemented UI/UX for Koolbaar e-commerce platform, enhancing user interaction and functionality with **html/css**, **JavaScript**.
- Collaborated with back-end developers to integrate **APIs** for seamless data fetching and payment processing, resulting in a 50% decrease in transaction processing time and a 15% increase in overall site performance.

### Software Developer (Back End)

Karbord Computer

Remote

May 2022 – Dec 2022

- Collaborated with the backend team to architect and implement a financial software solution.
- Utilized **SQL** to retrieve and organize data.
- Executed complex SQL queries to fetch and manipulate data, for dynamic report generation.

### Software Developer (Front End)

Karbord Computer

Remote

Jan 2021 – Apr 2022

- Collaborated with an agile team to enhance components for the mobile app using JavaScript frameworks such as **React.js** and **Angular** to enhance application interactivity and performance.
- Translated design mockups into functional components and Utilized **Git for version control**.
- Utilized design patterns to ensure scalability and reliability of front-end system.

### UX/UI Designer

Yekta Rose

Remote

Mar 2019 – Dec 2020

- Achieved 95% client satisfaction in gathering requirements for web development, ensuring product quality.
- Implemented web strategies with a focus on UX, resulting in a 20% increase in user engagement.
- Applied SEO techniques, contributing to 30% improvement in visibility and a 25% growth in traffic.

### IT Support Specialist

Peugeot – IranKhodro

Mashhad, IR

May 2017 – Feb 2019

- Conducted hardware and software troubleshooting, resolving technical issues promptly.
- Managed IT infrastructure, ensuring smooth operations and addressing data integrity concerns.
- Provided comprehensive technical support to end-users, including desktop and network support.
- Assisted in the installation and configuration of hardware, software, and operating systems.
- Utilized active directory, group policies, and organizational units to manage user accounts effectively.
- Engaged in Network and System Administration tasks to ensure network stability and security.

**Software Developer (Azure Cloud)**

Azad University

Mashhad, IR

Aug 2016 – Apr 2017

- Worked under the guidance of a lead developer, contributing to the **Azure cloud** migration project.
- Maintained **Jira stories** to track progress and manage tasks effectively throughout the project lifecycle.
- Participated in the migration of applications to Azure cloud using lift-and-shift and re-platforming strategies.
- Participated in **testing** to validate migration success and ensure application performance.

**Education**

---

**Algonquin College**

Diploma - Interactive Media Design

Ottawa, ON

**CGPA:3.9/4**

**Azad University of Technology**

Bachelor's Degree - Computer Science

Mashhad, IR

**CGPA:3.7/4**

**Key Projects**

---

- [Magic Swirl](#): Using XD, **html/css** and **JS**, Developed a web app focusing on front-end functionality and UX.
- [Pizza Order](#): Using **React.js**, created dynamic pizza ordering app with customizable sizes and toppings.
- [Lightbulb](#): Developed a controller web app using **Js DOM**, featuring functions to toggle power.
- **Hospital Information System (University Project)**: Collaborated with a team developing Hospital Information System, improving patient management and billing. Implemented design patterns for scalability.
- **AI-Powered Gardening Companion (University Project)**: Developed a gardening website using **React.js** and TensorFlow.js for personalized recommendations, Deployed on Netlify for automated deployment.
- **A Task Management System**: Created and deployed a Task Management System with **ASP.NET**, Entity Framework, **Azure**, including authentication, CRUD, and responsive design.
- **SMB Network**: Designed and implemented SMB network infrastructure using **Cisco Packet Tracer**, configuring **VLANs**, **DHCP**, **DNS**, **OSPF**, **ACLs**, **NAT**, and **HSRP**, ensuring compliance through testing.

**Licenses & Certifications**

---

**Google**

Technical Support Fundamentals

Mar 2024
